
MULTI-COMFORT HOUSE STUDENTS CONTEST 2017

EDITION IT IS OFFICIALLY OPENED

We are pleased to announce the launch of **13th International Edition for Multi-Comfort House Students Contest**, which will be held in Madrid, Spain, between May 31st and June 2th, 2017.

Dedicated to architecture students, engineering as well as other disciplines, the event aims at better disseminating the ideas of energy efficiency and the different comfort dimension: thermal, acoustic, visual, air quality.

The task for 13th International Edition of Multi-Comfort House Students Contest developed by ISOVER in close collaboration with Department of Architecture of Municipality of Madrid is the Urban Regeneration of a community within the perimeter of Gran San Blas area of Madrid. For 2017 Edition the jury, but also the students will have the possibility to reward proposals for a sustainable architecture integrated into the urban space, while responding to MAD-RE and Saint-Gobain Multi-Comfort Criteria and taking into account the climatic conditions and regional context of Madrid.

Organized since 2005 for all students from 1st to 6th year of study as an individual or in teams of up to 2 members per team, Multi-Comfort House Students Contest it is a two steps competition:

First Step:

- National Stages organized in the following countries: Belarus, Belgium, Bulgaria, Croatia, Czech Republic, Estonia, Finland, France, Germany, Kazakhstan, Kirghizstan, Latvia, Poland, Romania, Russia, Lithuania, Slovakia, Slovenia, Spain, South Africa, Turkey, UK, Ukraine.
- Online Entry Stage organized for students from countries which are not organizing local contest.

The winning teams of the National Stages and the winning team of Online Entry Stage will be invited to attend the International Stage.

Second Step:

SAINT-GOBAIN CONSTRUCTION PRODUCTS SOUTH AFRICA (PTY) LTD.

Reg no: 1937/010220/07

- International Stage organized in Madrid, Spain, between May 31st and June 2th, 2017, where winning teams from National Stages and the winner team from Online Entry Stage will participate.

During three days an estimated number of 60 teams from more than 20 countries will submit their ideas and projects to an international jury formed by foreign architect's experts in energy efficiency, representative of Architecture of Municipality of Madrid, local authorities and Saint-Gobain experts.

In 2016, over 1600 students from more than 100 Universities registered in the First Step of the competition. Following Second Step, 23 countries, 54 teams from 34 universities, were attending the 12th International competition organized in Minsk, Belarus.

About Multi Comfort House Students Contest

Multi Comfort House Students Contest it is a yearly contest dedicated to students at architecture and engineering universities, held for the first time at international level in Bulgaria in 2005.

The competition is structured in two steps: national stage and online stage, followed by an international stage, were the best projects from each country organizing national stage and the winner from online stage winner compete.

For 2016 edition, 1600 students were registered for the participation to the national stages. The 2016 International Stage was held in Minsk, Belarus, with 54 student teams from 23 participating countries.

Multi-Comfort House Students Contest 2016 Edition participants had to create a sustainable architecture responding to the specific needs of Brest Municipality. Their project had to integrate into the given site while respecting the Saint-Gobain Multi Comfort criteria taking into account the local climatic conditions.
