

Weber Range Charter

Weber has a longstanding reputation for its reliability and accessibility for all. Born from the needs of our builders, built to rise with them. Part of catering for local needs is preserving our environment for generations to come. At Weber, we're ensuring a reduced environmental footprint whilst maintaining superior quality. We're making it easy to choose better.

We're making it easy to build better. We're proud to announce that:

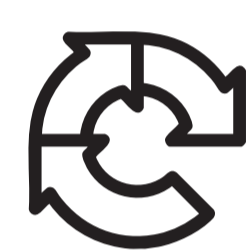

Weber is part of the futuRE Range:

A carefully curated range of best-in-class products that adhere to strict sustainability, health and wellbeing criteria.

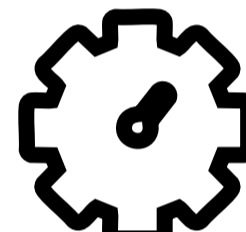

For a product to form part of this range, it must adhere to the following criteria:

1. Each product must have an third-party verified EPD.
2. The product must be locally manufactured.
3. The product must be manufactured in an ISO certified facility.
4. The product must contribute positively to at least one of the following criteria:

Better for the planet:

Better Resource Circularity.

Better Energy and Carbon Efficiency.

Better for people:

Better Health and Safety on Jobsites.

Better Health and Wellbeing Indoors.

How has Weber Tylon WB11 adhered to these Criteria?

Weber Tylon WB11 products are locally manufactured in an ISO 14001-certified facility.

Weber Tylon WB11 Ceramic Tile Adhesive has obtained an third-party verified EPD.

Energy and Carbon:

More than 10 % reduction in CO₂ compared to the previous version.

Improved Resource Circularity:

Weber Tylon WB11 has a minimum 25 % alternative raw materials, preserving our local resources.

We've ensured our packaging is 100% recyclable.

Health and Safety on Jobsites:

We've kept Weber Tylon WB11 the way we know and love, 100% easy to use.

No special heavy or noisy tools required.

Improved Health and Wellbeing Indoors:

Improved indoor air quality:

- Very low VOC emissions.

Ensured Fire Safety:

- Reaction to fire SANS 52004 - A1
