Bill No. 1 Preliminaries		
-----------------------------	--	--

Carried to Summary	R	<u>Not Priced</u>
--------------------	---	-------------------

Item No		Quantity	Rate	Amount
	<u>BILL NO. []</u>			
	<u>a.b.e FLOORING</u>			
	<p><u>NOTE:</u> All products to be applied according to a.b.e. instructions - all relevant data sheets to be read for mixing instructions, pot life, overcoating times etc.</p>			
	<u>EXPANSION JOINTS</u>			
	<u>"ABE DURASHEET" - polyethelene joint forming strip</u>			
	Expansion Joints with 12mm "abe durasheet" with cut-off strip (cut to size on site) between vertical concrete surfaces.			
1	12mm Joints between concrete beams	m		Not Priced
2	12mm Joints not exceeding 300mm high	m		Not Priced
	<u>GRANOLITHIC SCREEDS</u>			
	<u>"ABE DURALATEX"</u>			
	"abe duralatex" untinted granolithic mortar and screed adhesion improver			
3	On floors and landings	m2		Not Priced
4	On coved screeded skirtings not exceeding 300mm girth	m		Not Priced
	<u>HARD WEARING GRANOLITHIC SCREED</u>			
	<u>"ABE ABEDUR S" - natural aggregate granolithic screed.</u>			
5	10mm Thick on concrete floors, stairs and landings	m2		Not Priced
6	Extra-over for "abe epidermix 116 primer" including coarse silica aggregate working on 1kg/m2	m2		Not Priced
7	Extra-over for "abe duracure SBC" curing compound	m2		Not Priced
	Carried Forward		R	Not Priced
	Bill No. 2 Flooring (abe)			

Brought Forward			R	Not Priced
<u>SELF-LEVELLING SCREEDS</u>				
Prime screeded floors with "ABE ABESCREED SLC P PRIMER" and apply 5mm thick self-leveling "ABE ABESCREED SLC P"				
8	On floors to receive Vinyl tiles or sheeting	m2		Not Priced
<u>FLOORING</u>				
<u>NOTE: EPOXY COATINGS APPLIED BY SPECIALIST APPLICATORS</u>				
<u>"ABE ABECOTE WD337" - two part water dispersed epoxy coating</u>				
<u>"abe abecote WD337" - two part water dispersed epoxy coating applied to prepared surfaces as one coat primer and two top coats</u>				
9	On internal plastered walls	m2		Not Priced
10	On plastered ceilings and beams	m2		Not Priced
11	On existing internal plastered and painted walls	m2		Not Priced
12	On flush skimmed plasterboard ceilings	m2		Not Priced
13	On screeded floors	m2		Not Priced
<u>"ABE ABECOTE 400 HI-BUILD" - solvent free, self levelling epoxy flooring system applied 400 microns - 1000 microns thick to prepared surfaces with and including primer "abe abecote WD337".</u>				
OR				
<u>"ABE ABEFLO" - solvent free, self levelling epoxy flooring system applied 2000micron thick to prepared surfaces with and including primer "abe abecote WD337".</u>				
14	On screeded floors	m2		Not Priced
Carried Forward			R	Not Priced
Bill No. 2 Flooring (abe)				

	Brought Forward		R	Not Priced
	<p><u>"ABE ABESCREED PU" - polyurethane screed flooring system</u></p> <p>"abe abescreed PU" - Apply polyurethane screed flooring system at 6 - 8mm thickness, applied to prepared surfaces for bedding into saw cut grooves including primer "abe PU - HPU primer".</p>			
15	<p>On heavy duty floors</p> <p><u>"ABEFLO HPU"- High build Polyurethane floor screed</u></p> <p>"abeflo HPU" - Apply high build polyurethane screed flooring system at 2.5 - 4mm thickness, applied to prepared surfaces for bedding into saw cut grooves including primer "abe PU - HPU primer".</p>	m2		Not Priced
16	<p>On medium to heavy duty floors</p> <p><u>"ABE ABESCREED PU CG" - polyurethane screed flooring system</u></p> <p>"abe abescreed PU CG" - coving grade working on 75mm x 75mm cove including primer "abe PU - HPU primer".</p>	m2		Not Priced
17	<p>On coved screeded skirtings not exceeding 300mm girth</p> <p><u>CONCRETE FLOOR HARDENERS & SEALERS</u></p> <p>Finishing top surfaces of concrete smooth with power float with "abe abecron" natural aggregate, non-metallic floor hardener, (7kg/m2 in two operations), curing with "abe duracure SBC" resin based curing compound,</p> <p><u>"ABE ABECRON C CH LA" - dry shake surface hardener</u></p> <p>"abe abecron C CH LA" - modified level assisting natural hard wearing aggregate applied as a dry-shake at a rate of 5-7kg/m2 onto prepared fresh concrete, (elsewhere), with and including "abe duracure SBC", resin curing compound and floated to steel float finish.</p>	m		Not Priced
	Carried Forward		R	Not Priced
	<p>Bill No. 2</p> <p>Flooring (abe)</p>			

	Brought Forward		R	Not Priced
18	On fresh concrete floors	m2		Not Priced
19	On fresh concrete floors in narrow widths	m2		Not Priced
	<u>"ABE ABEPLATE" - metallic cementitious concrete floor hardener</u> "abe abeplate" - metallic cementitious concrete floor hardener applied as a dry-shake at a rate of 7kg/m2 onto prepared fresh concrete, (elsewhere), with and including "abe duracure SBC", resin curing compound and floated to steel float finish.			
20	On fresh concrete floors	m2		Not Priced
21	On fresh concrete floors in narrow widths	m2		Not Priced
	<u>"ABE DOWSIL 813 C" - low modulus saw cut silicone sealer</u> One-part neutral silicone sealant, including saw cutting joints and sealing with "abe Dowsil 813 C", low-modulus building silicone all strictly in accordance with the manufacturers instructions.			
	OR			
	<u>"ABE FLEXOTHANE 27" - single component construction sealant based on Hybrid technology</u> A one part polyurethane construction sealant "abe flexothane 27" medium modulus, moisture-curing hybrid construction sealant to be applied in accordance with manufacturers recommendations			
22	Applied to joints of 6mm wide and 6mm deep	m		Not Priced
23	Joints not exceeding 12mm wide and 6mm deep	m		Not Priced
24	Joints exceeding 25mm wide and 12.5mm deep	m		Not Priced
	Carried to Summary			
	Bill No. 2 Flooring (abe)
