\* Install (50) mm thick non-combustible, lightweight "Enerlyte"® Glasswool insulation blanket/batts for improved acoustic performance.

\* Install (50/100/135) mm thick flexible non-combustible lightweight "Aerolite"® insulation material between the roof trusses and over brandering/purlins in a completed roof and ceiling system. Installation strictly in accordance with the manufacture.

<sup>1</sup> See Gypframe® N Main Bar installation guide (Threaded Rod) here.

<sup>1</sup> See Gypframe® N Main Bar installation guide (Gyproc Angle) here.

<sup>2</sup> (NB) The system was designed for and does meet the full requirements of SANS 10177-2 (Stability, Integrity and Insulation).
