FEEL GOOD, LIVE WELL

At Saint-Gobain, we believe that feeling good in a building is about having the perfect amount of light, the proper level of sound and the ideal temperature. It is about design and technology, beauty and safety, efficiency and sustainability.

Buildings for a more comfortable life

Feel

THERMAL COMFORT

Reduce energy bills

Hear

ACOUSTIC COMFORT

Improve the acoustics

See

VISUAL COMFORT

Introduce as much natural light as possible

Breath

INDOOR AIR COMFORT

Improve air quality

Buildings for a better future

SUSTAINABLE RESOURCES

Our long-term goal is to recover all industrial waste.

ENERGY, CARBON AND ATMOSPHERIC EMISSIONS

Our products are key ingredients in reducing the built environment's carbon footprint.

WATER

Our objective is to withdraw as little water as possible and strive for zero discharge of industrial water.

BIO-DIVERSITY

Our ambition is to preserve, restore, increase and enhance biodiversity.

DID YOU KNOW?

Efficient insulation could save **30% - 40%** of your **energy costs**

Productivity increases by **18%** with access to daylight

Patient stay time can be shortened by **30%** by reducing sound levels in hospitals

Poor air quality lowers office workers' performance by up to **10%** on measures such as typing speed
